

**QUEENS' COLLEGE, INDORE**

**SUMMER ASSIGNMENT**

**WING- PRIMARY**

**CLASS - III**

**QUEENS' COLLEGE, INDORE**  
**SESSION 2021-22**  
**Summer Assignment**  
**Class III**

**Dear Parents,  
Warm Greetings!**

**It was an immense pleasure to witness so much of love and support of our students and parents throughout the Virtual Session 2020-21 and looking forward for same in session 21-**

**22.QUEENS' Family is here again to support our parents in grooming children during the summer time in a creative and fruitful way. Our Summer assignment incorporates academic and life skill based activities.**

**#Suggested activities for Students-**

- Start everyday with Meditation.
- Have healthy meals together and don't waste food.
- Offer glass of water and serve food to family members.
- Help family members in any house hold chores.
- Clean out your closet.
- Offer prayer daily.
- Give compliment/gratitude to family and be polite with everyone around.
- Take care of plants and feed birds and animals.
- Be responsible and independent in doing your work and set your parents free from your daily tasks.
- Send a virtual message /Give a concern call to your near and dear ones.

**#Value of the Week connects the conversations between home and school to create positive behaviour and outstanding learning habits in our children.**

**1.Honesty – Never lie and admit your mistakes. Accept right and deny wrong.**

**2.Gratitude – Be thankful for everything you have.**

**3.Caring – Care for people and help them in need.**

**4.Courage – Develop the ability to fight fear and be ready to face challenges.**

**#Sing Along –**

## Subject - Maths

**From stop signs and rectangular doors, to triangular roofs and circular wheels—shapes are everywhere. Learning shapes not only helps children identify and organize visual information, it helps them learn skills in other curriculum areas including reading, math, and science.**

**So, to enhance their creative skills through shapes here are some fun tasks that the child is going to do using shapes in their Summer Assignments**

- Read the Chapter 1-‘Shapes Around Us’ from Studio and complete the Companion Activity "Project Time" 1(e).
- Go through the link provided for better understanding.
- <https://youtu.be/mW5L51L9BbY>

## Subject - Social Science

### My Family

Family is the single most important influence in a child's life. From their first moments of life, children depend on parents and family to protect them and provide for their needs. ... They are a child's first teachers and act as role models in how to act and how to experience the world around them.

**So, let's have some fun session with our family by asking them these questions. [ Refer the image given below]**

Write down the responses from all members of family in your social notebook.

<b>FAMILY</b>	
	
• How many people are there in your family?	
• Tell me about the oldest person in your family.	
• Tell me about the youngest person in your family.	
• Having many children or only one child: which is better? Why?	
• What is the best age to get married? Why?	
• How many aunts and uncles do you have? Where do they live?	
• How many cousins do you have? Where do they live?	
• Describe a fun family activity.	
• How were families different 100 years ago?	
• How will families be different 100 years in the future?	
• Will you always live with your parents? Why? / Why not?	
• Who do you look like most in your family? How?	
• Who is the funniest person in your family?	
• Do you enjoy going to weddings?	
• Why do people decide to have kids?	
• What is the best way for families to be happy together?	

Subject - Science

## **LS1 The Magic of Life**

**Read the chapter 1 thoroughly and learn the glossary and question time of the lesson.**

### **Summer Project: Companion 1a (Growth in Plants)**

**Following instructions to be followed while doing the activity-**

- Refer Page number 1 to 3 of your Science Companion 1a activity for the materials required and procedure.
- Find an area within your house that can be used for this activity. Ensure such a spot where your pot is not disturbed.
- Soak your seed overnight in water before sowing them in the soil.
- Sprinkle water on the seeds regularly and mark the day as day 1 when the seeds sprout.
- Measure the height of the plant every alternate day using a measuring tape from Day 1 to Day 9. Measure the first day as the day the seed sprouted out of the soil. You can take help of any adult to do so.
- Record your observation and inference in the companion.

## Subject - GK

### ➤ ACTIVITY:

Create a poster showing the two kinds of animals that are found in the animal kingdom (land and water animal).

Here is a sample for the same.

Instructions:

- ❖ Make the poster on A4 size paper.
